

Working with the Neurobiological Legacy of Trauma

presented by

Janina Fisher, PhD

Janina Fisher is an international expert on the treatment of trauma and dissociation, Assistant Director of the Sensorimotor Psychotherapy Institute, and author of *Healing the Fragmented Selves of Trauma Survivors* (2017) and *Transforming the Living Legacy of Trauma* (2021).

Thursday, May 20, 2021

Online via VMR

To access the VMR, go to <http://meet.hhchealth.org> on your web browser. **Google Chrome is required.** You will be prompted to enter your name. Do so, then click OK. Next, click the blue button to dial in with video. Use the access code **meet.iohartford**, then click the green button. When you're prompted to enter a PIN, click JOIN instead. At this point you should be signed into the meeting.

Learning Objectives: *As a result of participating in this Live Activity, participants should be able to:*

- 1 Recognize the cognitive, affective and somatic effects of traumatic events
- 2 Identify signs of implicit non-verbal memory
- 3 Describe interventions that directly address the neurobiological effects of trauma

Accreditation Statement: In support of improving patient care, Hartford HealthCare is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

Credit Designation Statement: Hartford Healthcare designates this Live Activity for 1.25 *AMA PRA Category 1 Credit(s)*TM. Physicians should only claim credit commensurate with their participation.
