

Institute Of Living Grand Rounds

Metacognition and Psychosis: Emerging Research and Approaches to Individual Psychotherapy

presented by

Paul Lysaker, PhD

Clinical Psychologist at the Roudebush VA Medical
Center; Professor of Clinical Psychology at the Indiana
University School of Medicine

Thursday, September 17, 2020

12:00 p.m. – 1:15 p.m.

Livestream: HHC VMR @ [meet.iolhartford](https://meet.iolhartford.com)

Learning Objectives: *As a result of participating in this live activity, participants should be able to:*

1. Differentiate two ways in which the concept of metacognitive is different from the related terms of social cognition.
2. Explain how metacognitive could be a barrier to the formation of a personally meaningful idea of psychiatric challenges for adults with psychosis.
3. Explain how enhanced metacognitive capacity can help persons with psychosis direct their own recovery.

Financial Disclosure: The speaker, planners and directors of this event have no financial conflicts of interest in regards to the content of this program.

Commercial Support: There is no commercial support for this activity
