

To The Webb School Community,

Each of our students has proven remarkable adaptability and achievement in the remote engagement portion of their education and we are very proud of them, and you. That being said, we cannot wait to welcome back our students, to hear voices echoing in the halls, and watch them create and learn in our classrooms.

Communication with each other is important, and we will get you information as quickly as possible regarding school model changes or possible exposure. Remember that changes can happen with little notice, so look for updates on news stations and keep your contact data up to date.

The school staff is as vigilante as ever, assuring all safety practices remain at the forefront of our daily schedule. It is important that your students receive the same messages at home:

- Wash hands regularly for 20 seconds, or use hand sanitizer;
- Remain socially distant from others; and
- Wear a mask over the mouth and nose

Please remember; we should be informed promptly should your child need to be kept home for any of the following reasons:

- Fever 99.9 or over
- Chills
- Cough
- Shortness of breath/difficulty breathing
- Sore throat
- Headache
- Fatigue
- Muscle/body aches
- Abdominal pain
- Nausea/vomiting/diarrhea
- New loss of taste or smell
- Rash
- Known contact with someone who has tested positive for COVID-19

On behalf of The Webb School Administrative Team and Staff, thank you. Your enthusiasm and help has made this rather unique year a positive and educationally gainful one for our students.

Sincerely,

Kikke Levin Gerdner, Ed.D, Director of The Webb Schools
