

Internship Admissions, Support and Initial Placement Data

Date Program Tables Updated: 8/19/2020

Program Admissions

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements.

The internship is designed to enhance generalist clinical competencies within a scholar-practitioner training philosophy. Our four tracks, which consist of the Adult, Child/Adolescent, Adult Cognitive Behavior and Child Cognitive Behavior Therapy tracks, provide intensive training in providing therapies to patients experiencing serious mental illness and complex psychiatric disorders. Child Interns also train for four months in Pediatric Psychology at Connecticut Children's Medical Center. Applicants must be enrolled in an APA-accredited Ph.D. or Psy.D. program in clinical psychology and have completed a minimum of 2 years of academic and practicum training in clinical psychology. Elevation to doctoral candidacy and completion of all academic requirements are necessary. Applicants to the Adult and Child/Adolescent tracks are expected to have had basic coursework and practicum in psychodiagnostic assessment, including projective measures and psychotherapeutic interventions. Applicants to the Cognitive-Behavioral Therapy tracks need not have projective testing experience but familiarity with objective measures of personality and diagnosis is required.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Required Minimum Direct Contact <i>Intervention</i> Hours		Amount 500
Required Minimum Direct Contact <i>Assessment</i> Hours		Amount 100

Describe any other required minimum criteria used to screen applicants:

The Internship provides intensive experience providing individual, group and family psychotherapies in inpatient, intensive outpatient, and outpatient settings. Applicants with an interest in and prior experience providing interventions and assessments of patients presenting with serious mental illness are strongly encouraged to apply. Interviews with applicants are required and will be conducted this year through virtual platforms.
